In managed medical care step therapy is an approach to prescription intended to control the costs and risks posed by prescription drugs. The practice begins medication for a medical condition with the most cost-effective drug therapy and progresses to other more costly or risky therapies only if necessary.

Step therapy - Wikipedia

What is Sequential Evaluation? z. The sequential evaluation process is a series of five "steps" that we follow in a set order. z. If we find that an individual is disabled or not disabled at a step,
