research into the psychology of compliance. At first the research. took the form of experiments performed, for the most part, in my laboratory and on college students. I wanted to find out which psycho-logical principles influence the tendency to comply with a request. Right now, psychologists know quite a bit about these principlesâ€”what they are and how they work. I have characterized such ...

Influence â€”The Psychology of Persuasion by Robert B. Cialdini

Psychological assessment is a hybrid, both art and science. The empirical foundations of testing are indispensable in providing reliable and valid data. At the level of the integrated assessment, however, science gives way to art. Standards of reliability and validity account for the individual instrument; they do not account for the integration of data into a comprehensive assessment. This article examines the current climate of psychological assessment, selectively reviewing the literature ...
